We Understand Your Clients' Unique Needs and Risks

Here are just a few of the risks your clients face that can be addressed by HUB Private Client Advisors

Cyber Security & Liability Cyber extortion, actual financial loss, and cyber bullying are all very real risks that must be managed.

Disaster Preparedness Your clients are more likely to own property in beautiful, but high risk geographic areas that require specialized coverage.

Domestic Staff Employment Insurance coverage is needed for drivers, housekeepers and childcare providers in the event of workplace injury or wrongful employment allegations.

Multiple Properties 70% of homes in the U.S. are underinsured with high net worth individuals owning an average of 3.17 homes. The right coverage is crucial whether domestic or international.

Valuables & Collections More than \$1 billion in jewelry is stolen in the U.S. each year. Collections must also be protected from water damage and other catastrophes.

Personal Liability In the event of a lawsuit, your clients need coverage for legal defense costs and potential settlements.

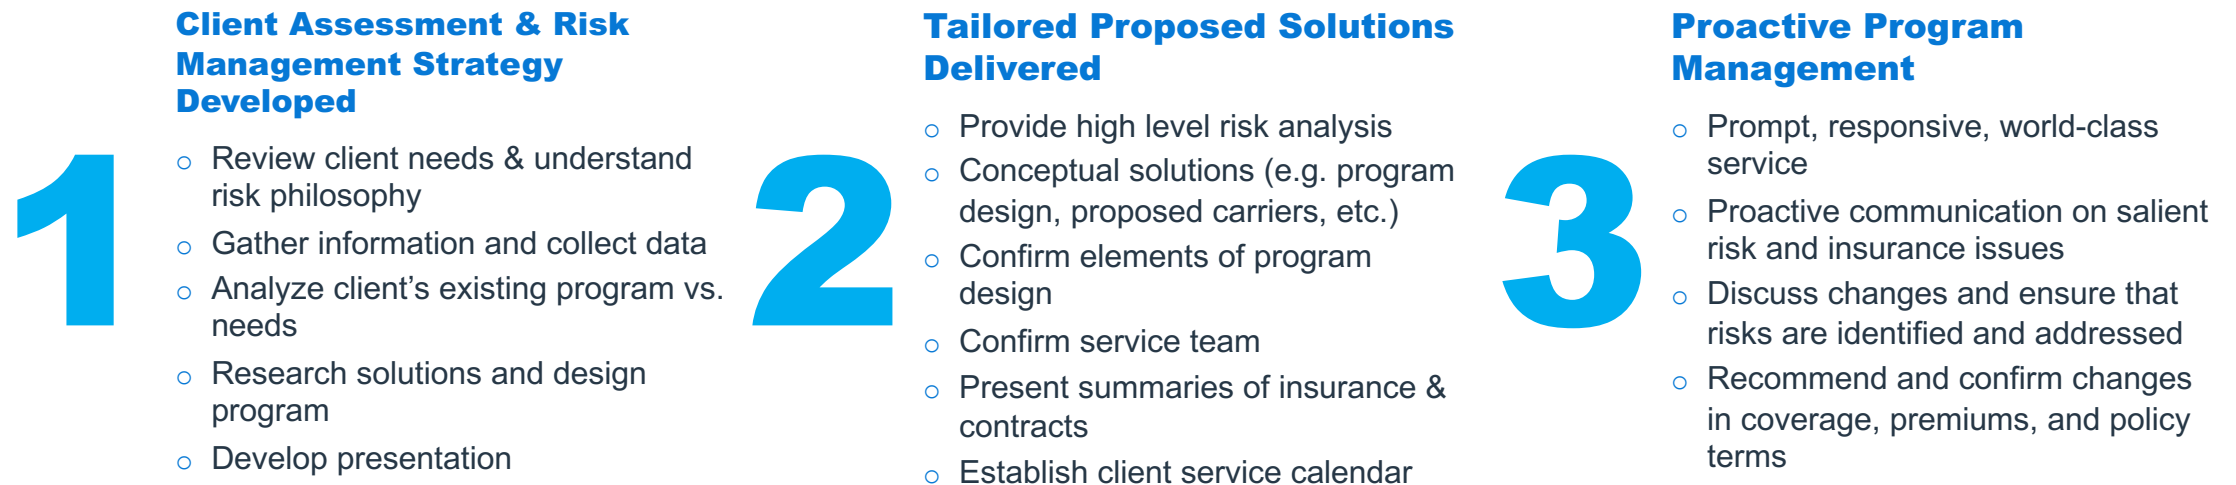

International Travel Risks Experiential travel means adventure--and a wide range of risks--from accident to illness to theft and kidnapping.

Watercraft From fishing boats to ocean-going yachts with on-board crews, this specialized coverage will help your clients avoid a boatload of trouble.

HUB's Personalized Service Model

Managing personal risk goes well beyond recommending insurance coverage. HUB offers comprehensive protection for high net worth family and estate assets.

Our approach to managing risk is demonstrated by years of industry-leading performance in tailored risk and insurance solutions.

A couple is walking along the edge of a swimming pool in a luxurious, modern outdoor setting. The man is wearing a white shirt and dark pants, and the woman is wearing a light-colored dress. They are holding hands and smiling. The pool is in the foreground, and the background features lush greenery and a clear blue sky. The overall atmosphere is serene and high-end.
